WELCOME TO DENMARK'S BIGGEST TRADE UNION WORKSHOP

Under the heading “3F - Making you stronger”, I’d like to welcome you all to 3F’s fifth ordinary congress and delegates’ meeting. Over the next few days, Aalborg will be buzzing with politics and debates. I’m looking forward to spending six days at Denmark’s biggest trade union workshop. With more than 700 delegates and almost 200 specific proposals for debate, we’re set for a week of lively and earnest discussion. As Denmark’s biggest and strongest trade union, we have to agree how, in the years to come, we can continue to help make Danish society even more favourable for wage earners.

Looking back at the past three years, we’ve exerted considerable influence on the political agenda and its direction. But we’ve also met major challenges. We’re facing a new reality, with globalisation, automation, digitisation and efficiency improvements making great demands on our joint work. At this congress, we’ll discuss how to respond to some of these challenges.

I am very proud of the work being carried out by 3F members at workplaces and divisions. We take responsibility in ALL of Denmark and for ALL of Denmark. Maintaining a strong and cohesive community is one of the main tasks of 3F. I hope that, here in Aalborg, we can unite on joint proposals for how to strengthen our individual members as well as the Danish community as a whole. This is the core of our slogan “3F - Making you stronger”.

We can’t do this without you. We need 3F to preserve and develop the Danish model and our welfare society.

Therefore, once again: Welcome to the 3F congress to make you and our community stronger.

Per Christensen
Forbundsformand 3F

Når jeg ser et rødt flag smælde

Tekst: Oskar Hansen

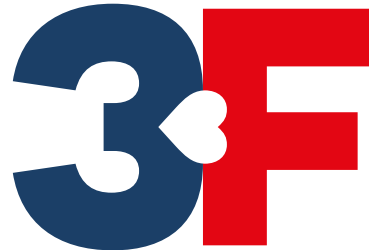

Musik: John Madsen

Når jeg ser et rødt flag smælde
på en blank og vårfri dag,
kan jeg høre det sælsomt fortælle
om min verden, mit folk og min sag.
Og jeg rejser mig trodsigt i vrirlen,
mens det kogler af kraft i mit mod,
thi det flag, der nu smældende når himlen,
er jo rødt som mit brusende blod.

Jeg har set min fader ranke
ryggen op i flagets brus.
Jeg har lyttet og hørt hjertet banke
i dets stolte, befriende sus.
Jeg har elsket dets farve fra lille,
da min mor tog mig op på sit skød
og fortalte mig manende og stille
om en fane så knitrende rød.

Jeg har anet slægters striden
imod fremtids fjerne mål.
Jeg har set trælletoget i tiden
blive mænd bag ved kampfanens bål.
Jeg har set den i blafrende storme,
jeg har elsket dens flammer i strid,
og bag den så jeg arbejdshænder forme
verden om til en lysere tid.

Det er sliddets slægters fane
over fronten vid og bred.
Den skal ungdommen ildne og mane,
den skal knuse hvert grænsernes led.
Den var forrest i fredelig færden,
den var forrest i stormklokkens klemte,
den er fanen, der favner hele verden -
i dens folder er fremtiden gemt.

Om lidt

Tekst og musik:

Kim Larsen og Leif Sylvester Petersen

Om lidt bli'r her stille
om lidt er det forbi.
Fik du set det, du ville
fik du hørt din melodi.

Forladt og alene
danser cirkusprinsessen rundt,
går i stå på sin line
i et sanseløst sekund.

Om lidt, om lidt er vi borte
vi ses måske igen.
